Dr. Adams is board certified in anatomic and clinical pathology. He joined Incyte Diagnostics in 2018 when Incyte acquired Blue Mountain Pathology, Inc. in Pendleton, Oregon. Dr. Adams shares his expertise from nearly 30 years of serving the medical community and building relationships in Eastern Oregon and beyond.

He attended Valparaiso University in Indiana where he graduated with honors, earning degrees in both Biology and Psychology. From there, he went on to University of Illinois College of Medicine, Peoria School of Medicine where he also earned his medical degree with honors.

Dr. Adams completed an internship in internal medicine at Saint Francis Hospital in Peoria, IL before moving on to a residency in clinical and anatomic pathology at the Methodist Medical Center of Illinois. During his residency he also gained forensic pathology experience performing coroner's autopsies.

After completing his education, Dr. Adams accepted a position as Director of Pathology for Delta Medical Center in Greenville, MS. He held this role for eight years before making the move to Oregon to join Blue Mountain Pathology where he served in leadership roles including group president. He had the opportunity to serve as a consulting pathologist for five area hospitals where he honed his special interests in clinical chemistry and hematology. He also spent 16 years performing medical examiner autopsies for Umatilla County.

Currently, Dr. Adams is the Laboratory Medical Director at four locations in northeastern Oregon.
